“It’s the same product you’ve been sourcing and purchasing for years—the specifications and quality haven’t changed at all. Yet we’re able to offer a lower price because we’ve streamlined our supply chain and are passing the savings directly on to you. This is our way of giving back for your support.”

Warehouse (Rotterdam)

Edisonweg 44,4207 HG Gorinchem,the Netherlands

Why Choose Printlocka?

Since 2003, Sourcemoves has been a trusted supplier to the world's top 20 leading companies in the displays and large-format print media industry — the very same brands many of you already purchase from today.

We are deeply committed to environmental sustainability. Our multinational team, operating across both China and Europe, helps significantly reduce our collective carbon footprint. For clients who prefer it, we also offer a direct-shipping option from China — bypassing our European warehouse entirely. This streamlined route cuts logistics steps, lowers carbon emissions, and reduces your purchasing costs.

Sourcemoves now ships not only from China but also directly from our European warehouse in the Netherlands, operated through Printlocka B.V. — a wholly-owned subsidiary of Sourcemoves. Printlocka B.V. will officially launch in June 2026. In the meantime, pre-ordering enquiries are welcome now; please contact our sales team for a catalogue and pricing.

Looking ahead, you will have two flexible purchasing options: buy directly from Printlocka Holland for immediate delivery anywhere in Europe, or order from Sourcemoves China for the most competitive pricing on bulk and container volumes, with lead times of 3+ months. We are confident that this expanded, cost-efficient distribution network will give you even more compelling reasons to work with us — and help keep your supply chain lean and highly competitive.

Key Benefits at a Glance

Extensive range of high-quality wide-format print media products
Competitive pricing — save on every order, large or small
Fast lead times with direct delivery from Printlocka Holland across Europe
Significant cost savings on bulk and container volumes via Sourcemoves China
One-stop shop for all your print hardware and consumable requirements
Dedicated Sourcemoves QA/QC team inspects every shipment prior to departure from China, in addition to factory-level quality control
Trade credit available, subject to status

TABLE OF CONTENTS
